

Co-Creation Without Borders | 2024 Community Exchange

Video Summary

The video introduces Delmo Rodriguez and Justin, who discuss their organizations and the cocreation lab focusing on performing arts and advanced networking. They highlight collaborations, exchanges, and projects over seven years, emphasizing the importance of technology and relationships in cocreation. They invite viewers to explore their work on YouTube.

Table of Contents

1. Cocreation Lab Without Borders

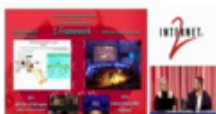

00:00:00 - Cocreation in Performing Arts

Delmo Rodriguez and Justin discuss their organizations, Ania Cothorale and New World Symphony, and their collaboration through cocreation lab and advanced networking in the performing arts field. They highlight their journey of collaborations over seven years and the impact of technology on their educational programs.

00:05:42 - Global Performing Arts Collaboration

The exchange between New York Symphony and Kaltura Ring began in 2017 with an online conference led by Chachin Treger, focusing on distance learning and performing arts networks. The collaboration expanded through the NPA PWB network, leading to a research project called Cocreation Lab in 2019, emphasizing transdisciplinary creation through IT tools.

00:10:34 - Co-Creation Project Visualized

The project's visual concept includes an organizational graph with color-coded roles like co-creators in red, advisors in green, and collaborators in yellow. The action plan for 2019 involved receiving applications globally, gathering potential co-creators, and conducting training encounters. Co-creation is discussed as a non-linear process with various stages and methods like "Brains on the Beach".

00:14:22 - Innovative Cultural Exchange Initiatives

Delma organizes complex online meetings with live translations for participants' primary languages, creating a comfortable environment for creative collaboration. Breakout rooms for personal reflections during Zoom calls help engage participants effectively. The collaboration process results in successful art, science, and technology projects presented to a jury board.

2. cocreation Lab Insights Overview

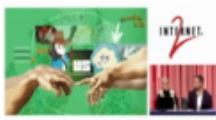

00:33:33 - Co-Creation Through Collaboration

The experiment in the lab is ongoing, focusing on collaboration and artistic co-creation. Recent super leagues gathering involved intensive conversations and building relationships among participants. While no direct artistic creations emerged yet, the focus is on understanding each other and preparing for future co-creation activities.
